**PLEASE SEE THE REVERSE SIDE FOR DIRECTIONS FOR USE.**

WOWgreen™

## Getting Started

Remove the trigger sprayer from each spray bottle and fill with cool water leaving approximately 2 inches of air space at top of bottle. Carefully cut along the top of each 1.5oz. Super Concentrated Package and pour the contents into the appropriately labeled bottle. For example, the All-Purpose package will go into the All-Purpose bottle, etc. When completed, replace the color-coded trigger sprayer back into the appropriate spray bottle. You are now ready to clean.

## Directions For Use

### Laundry Detergent

Fill the cap with 1 ounce of product. This should fill the cap 1/3 full. Please disregard the fill line that is located on the cap. Pour the liquid into any style or make of washing machine including high efficiency. For heavily soiled clothing spray the Fabric Pre-Wash directly onto the stain and wait 5 minutes before adding garment to the washing machine.

### Hand Dish Soap

Fill up your sink with warm water. Pour in a small amount of dish soap and put dirty dishes and pans into the sink. Let sit for 1 to 2 minutes. Wipe or brush dishes clean and rinse with water.

### Auto Dish Detergent

Fill auto dishwasher receptacle as directed by manufacturer.

### Toilet Bowl Cleaner

Lift cap and spray up and around inside rim of toilet bowl. Use brush or towel to scrub until clean. Flush toilet.

### All-Purpose Cleaner

Spray area that needs to be cleaned. Let product sit for 1 minute. Wipe away remaining residue.

### Glass & Stainless Cleaner

Spray on window or stainless appliance. Allow product to work for 1 minute. Wipe away residue with clean cloth.

### Tile & Bath

Spray on surface that needs to be cleaned. Allow to work for 2 to 5 minutes. For heavy mold or mildew, allow product to sit overnight. Wipe clean or rinse with water.

### Wood & Dust

Spray on clean cloth and wipe surface to be cleaned. Safe for all types of wood surfaces.

### Carpet & Upholstery

Spray on spot to be cleaned. Wait 2 to 5 minutes, then dab with wet cloth until stain disappears. Do the same for furniture.

**DO NOT USE THIS PRODUCT ON LEATHER OR RUGS THAT USE ORGANIC DYES.**

### Stain Pen

Shake before use. Apply directly to stain and saturate area. Tough stains may require a second application. Be sure to wash garment in wowgreen Laundry Detergent for maximum results.

### Rinse-Free Floor Cleaner

Pour one .5 ounce package into one gallon of warm water. Using a mop, slowly cover the floor with a thin layer of solution. Do not mop up. Let the floor naturally dry to a safe, green clean.
